

Hot stamping machine series

H-198 Pneumatic flat hot stamping machine

Product Details

- 1 Micro-processor control and pneumatic cylinder driven.
- 2 Capable adjustment on stamping pressure, temperature and speed.
- 3 Auto and adjustable of foil feeding and collecting.
- 4 Both adjustment on stamping head height and cylinder stroke to meet appropriate height for various substrates.

Heat plate size	200x150 mm
Heating power	-
Max. printing speed	1800 pcs/hr
Air consumption	-
Dimensions	-
Weight	-
