

## Hot stamping machine series

H-200M Pneumatic hot stamping machine with profile modeling and rubber roller

### Product Details

- 1 Installed with irregular shape component, able to stamp all polygon and irregular shaped surface beyond common heat transfer machine.
- 2 Workpiece rotated by irregular shape component, rubber roller rotates to stamp.
- 3 Microcomputer controlled, all function displayed by LCD ( with Chinese and English available ) for easy operation.
- 4 Adjustable stamping pressure, temperature, speed and stroke.
- 5 Built-in 5 digital auto counter.
- 6 Worktable can be adjusted at front/rear and right/left level.
- 7 Auto paper feeding and collecting.
- 8 Able to do flat printing after flat transfer worktable installed.

Heat plate size	diameter:102x25 mm
Heating power	1200 W
Max. printing speed	400 pcs/hr
Air consumption	125 L/min (6bar)
Dimensions	1650x950x1850 mm
Weight	307 Kg
