

Heat transfer series

HT-180P Auto Heat Transfer Machine for Pen

Product Details

1. Programmer controller and LCD display ensure eas operation;
2. 5-Digit auto counter is built in;
3. Rubber roller contacts with substrates in rotation form and the stamping head is adjustable ;
4. High precision photo sensor is to monitor and control the feeding of foil with dots and a timer is used for the foil without dots;
5. Auto foil loading and taking off, suitable for batch production of cosmetics and pens;
6. Step motor for foil collecting develops printing precision;
7. Stamping pressure, temperature and speed are adjustable;
8. The height of printing head is adjustable.

Rubber roller size	diameter:100x180 mm
Heating power	1200 W
Max. printing speed	2000 pcs/hr
Air consumption	281 L/min (6bar)
Dimensions	1000x1150x1750 mm
Weight	363 Kg
