

## Printing peripheral series

### EB-1000HX Screen stencil dryer

#### Product Details

1. Drawer type structure provides independent operation. Screen stencil is horizontally put thus evenly dried.
2. Temperature adjustment and constant temperature functions are available. The customer can select proper temperature based on different period of stencil making.
3. Ventilator is built in to effectively remove dust thus the stencil will not get dirt before it dries.

Max. screen frame size	1000x800 mm
Temperature range	~70°C
Wattage	3KW
Power supply	220V/50Hz
