

Pad printer series

SP-824RDQ Pneumatic 2-Color Pad Printer with Rotary Table

Product Details

Auto unloading system

Turntable utilizing for workpiece loading, unloading and printing simultaneously, safety and consistency guaranteed.

Durable microprocessor controls and simplifies the operations for high automation.

High quality aluminum structure used for light weight and long life.

Ink flooding by ink roller that is convenient for loading, unloading and cleaning.

Independent adjustment on printing stroke and printing speed for each pad.

Auto balanced doctor blade ensures efficient scraping.

"Twice ink sticking for once printing" function is designed for getting thicker ink and better printing result.

Ink flooding is available that prevent ink from fast drying when at intervals

Auto air blowing device is adopted for fast ink adhesion after ink transferring.

Standard plate size	100x100 mm
Worktable	-
Max.printing speed	1000 pcs/hr
Air consumption	200 L/min (6bar)
Dimensions	1210x850x1458 mm
Weight	200 Kg
