

SPCST-858SDQ1

5-Color Ink Cup Pad Printer with Independent Pad and Servo Shuttle

Features

- PLC controlled functions, user friendly interface, simple and convenient operation;
- 5-color ink cup pad printer adopts servo motor and high-precision screw drive, coordinating with independent pad to realize left/right printing in any position;
- High-quality aluminum alloy is used to make structure solid and weight light; the base adopts steel plate structure which is firm and stable;
- Adopt ink applying by ink cup, ink density is stable; it is unnecessary to add solvent within 6-8 hours, the ink is less volatile, difficult to splash, saving more than 50% ink, operating environment is clean and comfortable;
- Ink cup is durable and the removal and installation is convenient;
- Unique cup-shaped structure ensures neat ink scraping; the printing product is clear and beautiful;
- Left/right moving position of worktable can be adjusted according to different printing requirement;
- Five up/down independent run pads best suit the printing of elongated work-piece with many image;

Printed Sample

Technical Data

- | | |
|----------------------|------------------------|
| ● Ink cup diameter | Φ90 (mm) |
| ● Steel plate size | 125x300 (mm) |
| ● Max.Printing speed | 300 (pcs/hr) |
| ● Air consumption | 350 (L/min) |
| ● Rated power | 250W |
| ● Rated voltage | 1 Φ AC 220V ± 10% 50Hz |
| ● Rated current | 5A |
| ● Noise | <80 (dB) |
| ● Outline dimension | 1185x1020x1785 (mm) |
| ● Weight | 410 (kg) |
