

Pad printer series

SPC-858D Pneumatic 5-color pad printer with conveyor and sealed ink cup

Product Details

1. Five-colour pad printer with ink cup and gear-type conveyor;
2. Each function controlled by microprocessor for easy operation;
3. Five-digit auto counter built in;
4. High quality aluminium alloy is used to make structure solid and weight light;
5. Independent pad up/down stroke and speed adjustment;
6. Printing speed adjustable to fulfil various requirements;
7. "Inking twice, printing once" for thick ink film;
8. 5-colour, 4-colour, 2-colour, and 1-colour printing available;
9. Ink cup is used for ink covering, which makes ink economy over 50% and working environment clean as ink does not easily volatilize or splash;
10. The viscosity of ink is stable and no solvent is needed within 6-8 hours; ink can be kept unchanged in the cup for several months without the trouble of cleaning ink trays, whereas printing quality is easily guaranteed;
11. Ink cup is durable and its install/uninstall is easy;
12. Unique edge structure is used for the ink cup, so ink scraping is efficient, and vivid as well as goodly print can be obtained;
13. Drying with auto air blowing is available.

Standard plate size	250x100 mm
Worktable	100x70 mm
Max. printing speed	1000 pcs/hr
Air consumption	325 L/min (6bar)

Dimensions	1194x1026x1650 mm
Ink cup size	diameter:90 mm
Weight	305 Kg
